

BALINEUM

MOTTLED TILES

Mottled tiles, also called tortoise shell or speckled tiles, were popularised during the Victorian era and lend a sense of history to modern interiors. Tile makers around the world produce local variations on this design and Balineum's collection pays homage to original styles lining pub walls and fireplace surrounds in the north of England.

Handcrafted using English white earthenware clay, our Mottled tiles are available in 10 colourways as a starting point, and are made using the same bases and glazes as our Hanley tile collection. Patterns are created using a mix of our Hanley glazes that are hand-applied with sponges. Adhere to a single style or combine them with Hanley's plain field tiles, trims or highly decorative tube lined tiles to create truly bespoke installations.

As with all handmade products slight variations will occur, be it subtle irregularities in shape, shade or crazing. This will not affect the performance or serviceability of the tile. In fact, it adds to the unique characteristics of a handmade product. You may even spot the tile-maker's fingerprints on the underside.

Due to the intricacy of the production, these tiles are suitable only for smaller-scale projects under 100sqm.

LEAD TIMES

All tiles are made to order in 8-10 weeks depending on order size. Custom colourways or sizes may be available at additional cost and will add time to your order. There is no minimum order.
